To the Voters of Kerr County

Dear Voters,

You will see two (2) propositions on the November ballot that can affect all of the voters in Kerr County. These propositions deal with livestock.

Proposition 1 is about cattle and Proposition 2 is about horses, mules, jacks, jennets, donkeys, hogs, sheep and goats.

What these propositions do is clean up some very old laws in Kerr County that left parts of the county "open" and other parts "closed".

In short, what these mean is whether or not the person that owns livestock must fence them "in" so they cannot get on their neighbor's property or whether their neighbor must fence them "out" of their property.

These 2 propositions do not affect farm to market roads with cattle guards where the same person owns both sides of the road.

Thank you,

  
Sheriff Rusty Hierholzer
