

Jack & Frances Stevens

Although Jack and Frances Stevens spent 30 years in the Navy, they both have deep roots in Kerr County. Both were born in Kerr County, Frances in the Felix Real home on Medina Highway and Jack here in Kerrville in what was then his grandparents' home on Park Street. They recount with fondness growing up in Kerr County, the simple pleasures of football games, dances and movie dates for one dollar and working for .25 cents an hour. Jack grew up in town and Frances on a ranch far out of town. However, both attended Tivy schools and knew each other in school. After high school, Jack attended Schreiner Institute and later the U.S. Naval Academy. Frances attended University of Texas and after graduation, they married. The next 30 years were spent all over the world, although they always planned to return to Kerr County. Since that return, they have settled on a family ranch and spend their time raising a few cattle and involving themselves in community affairs.
